Hunting and trapping seasons and limits for furbearers

This administrative regulation establishes season bag limits, legal methods of take, and checking and recording requirements for furbearer hunting and trapping.

Significant Changes

This amendment eliminates an existing ten foot spacing requirement between traps set on dry land, amends the definition for "water sets," eliminates hunter orange clothing requirements for trappers, requires Convention on International Trade of Endangered Species of Flora and Fauna (CITES) tags to be attached to furbearers upon receipt from the department and requires that river otters and bobcats must be telechecked before leaving Kentucky. It also contains modifications to conform to administrative regulation style requirements.

3 (Amendment)

4 301 KAR 2:251. Hunting and trapping seasons and limits for furbearers.

5 RELATES TO: KRS 150.170, 150.180, 150.370, 150.399, 150.415, 150.416, 150.990, 150.995

6 STATUTORY AUTHORITY: KRS 150.025(1), 150.175(7), (9), 150.360, 150.400, 150.410

7 NECESSITY, FUNCTION, AND CONFORMITY: KRS 150.025(1) authorizes the department
8 to promulgate administrative regulations to establish open seasons for the taking of wildlife, to
9 regulate bag limits and methods of take, and to make these requirements apply to a limited area.

10 KRS 150.175(7), (9) authorizes the department to issue licenses, permits, and tags for hunting
11 and trapping. KRS 150.360 requires restrictions on the taking of wildlife and authorizes the
12 department to promulgate administrative regulations establishing the requirements for hunting
13 coyotes at night. KRS 150.400 authorizes the department to establish the types of traps that can
14 legally be used by trappers. KRS 150.410 authorizes the department to regulate trap tags, trap
15 visitation, and trap placement to protect domestic animals. [~~KRS 150.360 requires restrictions on~~
16 ~~the taking of wildlife and authorizes the department to promulgate administrative regulations~~
17 ~~establishing the requirements for hunting coyotes at night.]~~ This administrative regulation
18 establishes seasons, bag limits, [and] legal methods of take, and checking and recording
19 requirements for hunting and trapping furbearers.

20 Section 1. Definitions. (1) "Body-gripping trap" means a commercially manufactured spring-

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

301 KAR 2:251. Hunting and trapping seasons and limits for furbearers.

Contact Person: Rose Mack

(1) Provide a brief summary of:

(a) What this administrative regulation does: This regulation establishes season bag limits, legal methods of take, and checking and recording requirements for furbearer hunting and trapping.

(b) The necessity of this administrative regulation: This regulation is necessary to provide adequate furbearer hunting and trapping opportunities and to properly manage furbearer populations in Kentucky.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 150.025(1) authorizes the department to promulgate administrative regulations to establish open seasons for the taking of wildlife, regulate bag limits and methods of take, and to make these requirements apply to a limited area. KRS 150.175(7)(9) authorizes the department to issue licenses, permits, and tags for hunting and trapping. KRS 150.360 requires restrictions on the taking of wildlife and authorizes the department to promulgate administrative regulations establishing the requirements for hunting coyotes at night. KRS 150.400 authorizes the department to promulgate administrative regulations to establish the types of traps that can legally be used by trappers. KRS 150.410 authorizes the department to regulate traps tags, trap visitation, and trap placement to protect domestic animals.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in administering the above statutes by defining the seasons, bag limits, and methods used to trap and hunt furbearers in Kentucky.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment eliminates an existing ten (10) foot spacing requirement between traps set on dry land, amends the definition for "water sets," eliminates hunter orange clothing requirements for trappers, requires CITES tags to be attached to furbearers upon receipt from the department and requires that river otters and bobcats must be telechecked before leaving Kentucky. It also contains modifications to conform to administrative regulation style requirements.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to manage hunter and trapper opportunity without negatively impacting the furbearer resource.

(c) How the amendment conforms to the content of the authorizing statutes: See (1)(c) above.

(d) How the amendment will assist in the effective administration of the statutes: See (1)(d) above.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All those who hunt or trap furbearers may be affected by this regulatory amendment. The Department sold 3,390 trapping licenses during the 2013-14 license year. Those individuals who hunt furbearers would also be affected, but that number is unknown.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: A person trapping on private land may now set traps on dry land without a minimum spacing requirement between traps. Trappers setting traps as "water sets" will need to comply with the definition of a "water set". A person trapping furbearers will no longer be required to wear hunter orange when trapping during a modern firearm season for bear, deer, or elk. Trappers and hunters must comply with new checking requirements for river otters and bobcats.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There will be no direct cost to hunters and trappers as a result of this amendment to the administrative regulation.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): New trap restrictions will increase trapping efficiency and success. Elimination of the hunter orange clothing requirement for fur trappers will make trap lines less visible to the public and therefore lessen potential for theft of traps. New checking requirements for river otters and bobcats will assist in keeping fur trappers in compliance with federal restrictions that govern the sale of fur. Trappers will also benefit from the new definition of "water set", which is more inclusive of common water trapping methods.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: There will be no administrative cost to the department to implement this administrative regulation.

(b) On a continuing basis: There will be no cost to the department on a continuing basis.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The source of funding is the State Game and Fish Fund.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: It will not be necessary to increase any other fees or to increase funding to implement this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: No fees were established directly or indirectly.

(9) TIERING: Is tiering applied? (Explain why or why not) No. Tiering was not applied because all furbearer hunters and trappers in Kentucky must abide by the same seasons, methods of take, bag limits, harvest recording procedures, and checking requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

Regulation Number: 301 KAR 2:251

Contact Person: Rose Mack

Phone number: (502) 564-3400

(1) What units, parts, or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department's Wildlife Division and Law Enforcement Division will be impacted by this administrative regulation.

(2) Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 150.025(1), 150.175, 150.360, 150.400, and 150.410.

(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? No additional revenue is expected to be generated by this administrative regulation during the first year.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? No additional revenue is expected to be generated by this administrative regulation during subsequent years.

(c) How much will it cost to administer this program for the first year? Administrative costs for the first year are expected to remain the same.

(d) How much will it cost to administer this program for subsequent years? Administrative costs for subsequent years are expected to remain the same.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Revenues (+/-): None.

Expenditures (+/-): None.
